

J shape tempered glass for glass showcase/cabinet

Normal tempered glass are flat ,or curved with uniform radius.

But newest tempering furnace allow morn to supply J shape tempered glass.

J shape glass is widely used in glass cabinet,glass showcase,glass shower doors,but for technology reason,the glass was usually hot bending glass,even if making it to be laminated hot bending glass,the glass is easy to break with low strength.

J shape tempered curved glass is processed by most advanced tempering furnace,it's biggest advantage is to achieve curved tempered glass but with different radius.

Here is the video shows how it is tempered.
